Fagin's Kitchen.

Another piece of Dickens' London is being demolished in Fulwood's Rents, Holborn, the shallow basement of which is said to have been the original of Fagin's thieves' kitchen. It was also a resort of Jack Sheppard, and at an earlier date Francis Bacon lived in the building.

Literary Text.

Nearly all the great geniuses lived and died poor; but don't run away with the idea that poverty is a sign of genius. As the late Josh Billings remarked: "It's often a sign of natural-born laziness!"—Atlanta Constitution.

Skating On Thin Ice.

Scores of Skaters Meet Their Death Every Winter Through Disregard of the "Danger" Sign.

While thin ice in spots marked "Danger" brings death to scores of overbold and reckless skaters, disregard to the warnings given by Nature kills off thousands who neglect their bronchitis or asthma, sore throat, coughs or colds. The congested air-passages with the irritation produced by incessant coughing are the best breeding-places for the deadly germs of pneumonia and consumption. Mortality arising from these terrible diseases is on the increase, and yet they can be arrested in their early stages. Abbey Syrup, Cloister Sancto Paulo, has established a marvelous record in Europe for the cure of all bronchial and lung affections. Try a bottle today, it will convince you. You simply cannot afford to be without it. Saves doctors' bills, sickness and misery. This is the original remedy and is so good and personally recommended in Paw Paw by all druggists.

What is a Cheap Piano

A cheap piano may cost any amount of money; its cheapness is determined by the relation of its cost to its quality. In medium priced pianos the cheapest is the "HAMMOND"; gives greatest satisfaction for the longest time at the least cost.

Most Value
Into Their
Clothes for Young Men

YOU can expect more and get more in these garments, because there is all the difference between superior and inferior tailoring; and tailoring is nine-tenths of clothes-making.

Ederheimer-Stein clothes are produced by hand in new, clean, modern tailor shops. It's the latest method of making clothes, and confined to few manufacturers. This accounts for the better finish of the garments, more perfect fit, snap and smartness of the style. Select the
